Opportunities in Science & Technology – As a Professional Career

The Council of Scientific and Industrial Research (CSIR) is an autonomous organization under the Ministry of Science & Technology, Government of India. It is amongst the foremost scientific and industrial research set-ups in the world. Having state-of-the-art infrastructure and scientific and technical manpower second to none, CSIR covers practically the entire spectrum of scientific and industrial R&D of national and international importance. This ranges from aerospace to ocean exploration, micro-electronics to structural and environmental engineering, smart materials to mechatronics, petrochemicals to synthetic biology and from robotics and micro-machines to drugs & pharmaceuticals and agrochemicals.

CSIR-AMPRI, Bhopal a unit of Council of Scientific and Industrial Research (CSIR), is a premier scientific organization involved in conducting high quality research in the areas of Advanced Materials and is engaged in developing promising technologies for (i) Lightweight materials including high strength Aluminium and Magnesium alloys, composites and foams (ii) Shape Memory alloys (iii) Nano Materials (iv) Alternate Building Materials (v) Waste to Wealth (vi) Radiation Shielding and geo-polymeric material and (vii) Rural development.

The Institute is looking for dynamic and creative Indian researchers having excellent academic record and involved in Product Development, Technology Innovation and Translational Research etc. in the above broad areas.
